

Material Safety Data Sheet

According to EU Regulation 1907/2006 in the current version

Date 10.12.2015

Version 3.0

NEEM OIL, VIRGIN ORGANIC

1. Identification of the substance/preparation and the company

Trade name: Neem oil, virgin organic
 Product resulting from organic agriculture certified by Ecocert Greenlife

Utilisation: Raw material for cosmetic and household products

Supplier company identification: **Elemental SRL**, Piata Cazarmii no.15, 410188-Oradea, jud.Bihor, Romania
 Tel/Fax: +40259-436.755, www.elemental.eu

Emergency: RO: numar national pentru cazuri de urgenta: 021 3183606 Institutul de Sanatate Publica Bucuresti. International emergency number: +49 180 2273-112

2. Hazards Identification

Classification according to Regulation EU 1272/2008: Not classified as a hazardous substance.
 Labelling according to EU regulation 1272/2008 (GHS-Labeling)
 Signal word: None
 Pictograms: None
 Hazard phrases: None
 Safety phrases: None
 Other hazards: None

Classification according to EU 67/548 EEC or 1999/45/EC: Not classified as a hazardous substance.
 Labelling according to EU regulation 67/548
 Hazard Symbol: None
 Risk phrases: None
 Safety phrases: None

3. Composition / Information on ingredients

INCI-name: Melia Azadirachta Seed Oil 100%
 CAS-number: 8002-65-1
 EINECS-number: 290-052-2

4. First Aid

Generally: No special measures required. A medical examination is not necessary.

First aid after Inhalation: Move to fresh air. Seek medical advice if necessary.

First aid after Skin contact: In general product is not skin-irritating. Wash skin with soap and water.

First aid after Eye contact: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.

First aid after Ingestion: No special measures required. In the event of unintentional swallowing, do not force vomiting. Seek medical attention if necessary, showing the label.

Most important symptoms and effects, acute/delayed: No symptoms known.

5. Fire-fighting Measures

Suitable extinguishing media: Foam, dry chemical powder, carbon dioxide, sand or earth

Unsuitable extinguishing media: Do not use direct water jet on burning material.

Special protective equipment: Avoid vapour inhalation. Keep away from sources of ignition. Do not smoke. Wear

Material Safety Data Sheet

According to EU Regulation 1907/2006 in the current version

NEEM OIL, VIRGIN ORGANIC

positive pressure self-contained breathing equipment & protective clothing. Respiratory and eye protection required for fire crews when exposed to smoke or

Fire and explosion protection: This product is made up of inflammable material with low risk. The product may only form ignitable mixtures or burn only upon heating above the flash point. However, minor contamination by lightly volatile hydrocarbons may increase the hazard. Ignition hazard at welding at the empty container.

Other information: Dangerous combustion residues: smoke, carbon monoxide, carbon dioxide
Closed containers may build up pressure when exposed to heat and should be cooled with water spray. In the case of fire: Use respirator.

6. Accidental release measures:

Personal precautions: Remove sources of ignition, provide adequate ventilation, avoid contact with skin and eye contact. Use individual protective equipment (safety glasses, waterproof-boots, suitable protective clothing) in case of major spillages.

Environmental precautions
Land spill: Shut off source. Prevent product from entering sewerage, water courses or low lying areas. Take measures to reduce or prevent effects on ground water. Gather product mechanically if possible. Bind remainings of the product with sand or other appropriate absorbent and remove. Dispose of product and contaminated absorbents in suitable containers, as directed in section 13.

Water spill: Confine the spill immediately with booms. Warn other ships. Notify port and other relevant authorities. Remove from the surface by skimming or with suitable absorbents. In running waters, apply appropriate dispersants in accordance with local regulation.

Methods for cleaning up: Small spills and residues may be absorbed with material such as cloth or sawdust, washed away with water and cleaned with sodic products. Larger spillage may be pumped.

7. Handling and Storage

Precautions for safe handling: Apply good manufacturing practice & industrial hygiene practices, ensuring proper ventilation. Observe good personal hygiene, and do not eat, drink or smoke whilst handling. Keep containers leak proof closed and dry. Protect against sun/light. Prevent spills and leakages to avoid slip hazard.

Conditions for safe storage: Intrusion into soil to be avoided. Store the product in cool (max. at room temperature) and well-ventilated environment and keep away from sources of ignition. Provide suitable mechanical equipment for the safe handling of drums and heavy packages. Electrical equipment and fittings must comply with local regulations.

8. Exposure Controls and Personal Protection

Hand protection: Wear suitable protective gloves in the event of prolonged or repeated skin contact. Gloves must be selected according to the application and duration of use at the workstation. Protective gloves need to be selected according to their suitability for the workstation in question: other chemical products that may be handled, necessary physical protections (cutting, pricking, heat protection), level of dexterity required.

Occupational exposure limit: No special measures required

Eye protection: Avoid contact with eyes. Use eye protectors designed to protect against liquid splashes

Physical protection: Use individual protective equipment

NEEM OIL, VIRGIN ORGANIC

9. Physical and Chemical Properties

| | |
|---------------------------------|--|
| Appearance: | turbid liquid |
| Colour: | greenbrown to brown |
| Odour: | typical, pungent |
| Melting point / freezing point: | not available |
| Initial boiling point & range: | not determined |
| Flash point: | > 240 °C |
| Refractive index at 20°C: | 1.461 - 1.476 |
| Relative density at 20°C: | 0.920 - 0.946 |
| Solubility: | insoluble in water; slightly soluble in ethanol, miscible with oil, soluble in ether |
| Viscosity at 20°C: | not determined |
| Auto-ignition temperature: | > 300 °C |
| Flamability: | not available |
| Explosive properties: | not available |
| Decomposition temperature: | > 300 °C |

10. Stability and Reactivity

| | |
|-------------------------------------|--|
| Reactivity: | It presents no significant reactivity hazards, by itself or in contact with water. Avoid contact with strong acids, alkali or oxidizing agents. Oxidation with atmospheric oxygen. Formation of free fatty acids |
| Chemical stability: | The product is stable under normal conditions |
| Possibility of hazardous reactions: | It presents no significant hazardous reaction. Reacts with oxidants. |
| Conditions to avoid: | Keep away from heat sources, open flames and sunlight. |
| Substances to avoid: | Avoid contact with strong oxidants |
| Hazardous decomposition products: | Product does not decompose at proper handling. Liable to cause smoke & acrid fumes during combustion: carbon monoxide, carbon dioxide & other non-identified organic compounds may be formed. |

11. Toxicological Information

Not classified as hazardous conform EEC Dangerous Substance Directive and Dangerous Preparation Directives. If the product is used properly it will not cause any injuries to health.

| | |
|---------------------------------|---|
| Acute toxicity: | In compliance with generally accepted uses and quantities are no negative impacts to be expected. LD50 oral: not determined LD50 dermal: not determined LC50: not determined Inhalation: There is not expected negative impact. Ingestion: There is not expected negative impact. Skin contact: There is not expected negative impact. Eye contact: There is not expected negative impact. |
| Skin corrosion/irritation | In compliance with generally accepted uses and quantities are no negative impacts to be expected. |
| Serious eye damage/irritation | In compliance with generally accepted uses and quantities are no negative impacts to be expected. |
| Respiratory /skin sensitization | In compliance with generally accepted uses and quantities are no negative |

NEEM OIL, VIRGIN ORGANIC

| | |
|------------------------|--|
| Germ cell mutagenicity | impacts to be expected. |
| Carcinogenicity | There is not expected negative impact. |
| Reproductive toxicity | There is not expected negative impact. |
| STOT-single exposure | There is not expected negative impact. |
| STOT-repeated exposure | No information available |
| Aspiration hazard | No information available |

12. Ecological Information

- 12.1. Ecotoxicity: low
- 12.2. Mobility in soil: low
- 12.3. Degradability: Biologically well degradable
- 12.4. Bioaccumulation potential: possible
- 12.5 Various harmful effects: no information available

13. Disposal Considerations

Recommendation: Absorb the oil with material such as cloth, paper or sawdust.
Collect and dispose of waste product at an authorised disposal facility. Product remainders should not intrude in soil or waters.

14. Transport Information

General recommendations: Not dangerous product
 UN no: not classified
 Road (ADR/RID): not classified
 Air (IATA/ICAO): not classified
 Sea (IMDG): not classified
 Special precautions for user: See section 6-8
 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC: Not defined

15. Additional Regulatory Information

EU Classification:
 Not subject to classification according to CLP Regulation (EC) No. 1272/2008.
 Not subject to classification according to Directive 67/548/EC or Directive 1999/45/EC.
 Regulations specific for the substance or mixture: not available data
 Chemical safety assessment: not available data

16. Other Information

Abbreviations:
 ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road.
 CAS: Chemical Abstracts Service (division of the American Chemical Society).
 CLP: Classification, Labeling, Packaging.
 DNEL: Derived No Effect Level.
 EINECS: European Inventory of Existing Commercial Chemical Substances.
 GHS: Globally Harmonized System of Classification and Labeling of Chemicals.
 IATA: International Air Transport Association.
